

Your patient is in safe hands

BlueCare is one of Australia's leading care providers, with a specialised clinical workforce ready to provide tailored in-home services for your patients.

Whether it's for post-acute or scripted nursing services, hospital-in-the-home care, ongoing clinical care for chronic disease management, dementia support and dementia specific in-home respite, palliative care or just some assistance around the house, BlueCare can help.

Patients are also supported by a local Neighbourhood care team, which provides a small, familiar team of care professionals who are always available to them in their local area.

This ensures they receive personal, genuine, tailor made, professional care from a face they know and trust.

With a [dedicated phone number](#) just for our healthcare partners and professionals, BlueCare can respond quickly to your enquiry, ensuring a timely intake process for new patients or an update to an existing patient's care plan.

How can BlueCare support my patients?

Specialist services (statewide)

Whether it's help with a complex chronic condition or to improve general health and wellbeing, BlueCare's team of specialised health practitioners can provide tailored care plans across a variety of needs and disciplines:

- Hospital in the Home
- Palliative Care
- Nursing care
- Continence care
- Dementia Support
- Diabetes Management
- Heart Health
- Lymphoedema and Lipedema
- Medication Support
- Diet and Nutrition
- Mobility and Exercise
- Physiotherapy
- Occupational Therapy
- Speech pathology
- Podiatry
- Psychology and Social Work
- Music therapy

In person or online

BlueCare's specially trained health care professionals can deliver almost all clinical and allied health services via Telehealth, providing much needed services into remote corners of Queensland or to clients in the comfort and safety of their own home.

Support at home and in the community

With a 70-year legacy of care, BlueCare can create a tailored program of services that support clients at home and in the community to help them achieve their goals, and live life as independently as possible.

With care coordinated and delivered locally by the Neighbourhood team, your patients can be assured they will have a small, consistent team of familiar faces who will work together to provide the personalised, genuine professional care they need.

- Personal care
- Carer respite – in home or in our community centres
- Meal preparation
- Housework and basic garden maintenance
- Medication Support
- Accompanying them to doctor and hospital, and allied health appointments
- Social outings and family events
- Shopping

How do I refer a patient?

We can provide care and support to patients of all ages, for government subsidised or privately funded services. We will just need your patient's MAC ID if they are being funded under CHSP.

Who can I refer?

Our dedicated Referrer Hotline, [1800 030 289](tel:1800030289), offers you direct access to our community in-take team who can assist you with any specialist enquiries. Alternatively fax through your referral to our team on [1800 170 446](tel:1800170446).

How quickly can BlueCare provide services?

We will contact either yourself or your patient as soon as we receive your referral to coordinate their care. We will discuss with them any potential subsidies they may be entitled to and facilitate on-referral to government departments, such as My Aged Care for patients over 65.
