The Wesley Hospital

The iconic Wesley Hospital is one of the largest private not-for-profit hospitals in Australia, situated in the heart of Brisbane.

We offer comprehensive care across a wide range of acute tertiary-level medical and surgical services with a particular focus on cancer care, cardiac care, orthopaedics, women's health, and complex surgical care. This includes the largest robotic surgery program in Australia.

The Wesley Hospital has Centres of Excellence in Breast Surgery, Robotic Surgery, Metabolic and Bariatric Surgery, Minimally Invasive Surgery and Orthopaedic Surgery. Our Centres of Excellence have been accredited by the internationally recognised Surgical Review Corporation against rigorous criteria.

Through research and education, we continuously seek out the latest advancements in treatment techniques and processes. By consistently investing in new technologies, we are able to improve patient outcomes.

No matter what treatment your patients require, chances are The Wesley Hospital can help.

Breast and Endocrine Surgery

Prof Ian Bennett	3839 0006
